## SUMMARY

---

I received a degree from the University of South Florida in Psychology and Applied Behavior Analysis. After a year in the field I decided that behavioral analysis wasn't the career that I wanted. I had been learning programming in my spare time for several years and decided that now was the time to take a big risk and turn my hobby into a career. I'm looking for a place where I can continue to learn, grow, and be challenged.

## EDUCATION

---

### University Of South Florida

BA Psychology 2015

Minored in Applied Behavior Analysis

### Pasco-Hernando Community College

AA 2013

### The Odin Project

Full Stack Ruby on Rails boot camp. Sections completed:
